

Bank of America, N.A. India Branches - Policy on Bank Deposits

One of the important functions of the Bank is to accept deposits from the public for the purpose of lending. The Reserve Bank of India (RBI) is empowered to issue directives / guidelines on interest rates on deposits and other aspects regarding conduct of deposit accounts from time to time. With liberalization in the financial system and deregulation of interest rates, banks are free to formulate deposit products within the broad guidelines issued by RBI.

This policy document on deposits outlines the guiding principles in respect of various deposit products offered by Bank of America at its branches in India ("the Bank"). The document recognizes the rights of depositors and aims at dissemination of information with regard to various aspects of acceptance of deposits from the members of the public, conduct and operations of various deposits accounts, payment of interest on various deposit accounts, closure of deposit accounts and other related items for the benefit of customers. It is expected that this document will impart greater transparency in dealing with customers and create awareness among customers of their rights so as to ensure that customers will get services they are rightfully entitled to receive without demanding for it.

While adopting this policy, the Bank reiterates its commitments to customers outlined in Bankers' Fair Practice Code of Indian Banks' Association. This document is a broad framework under which the rights of common depositors are recognized. Detailed operational instructions on various deposit schemes and related services will be issued from time to time.
